The fact that warm weather came in June instead of May affords no reason whatever, for a man's trying to struggle through July and August—the hottest part of the year—in the kind of a suit he needed three or four months ago.

We have a much larger, much more desirable assortment of two-piece suits (coats and trousers), to be worn with soft shirt and belt, than any other clothing house in this community.

There are flannels, serges and Tropical Worsteds; quarterlined with fine mohair or cool pongee silk.

Despite the late summer, our sales of light-weight clothing have exceeded sales of any former season. But we anticipated a heavier trade when we made our purchases from the manufactur-

We bought a much larger stock than we ever before thought of buying. Consequently, we still have a large number of suits in all the latest styles and most attractive patterns.

Under such circumstances, we have decided that it is good business judgment to offer to the people of Palatka and Putnam county some notable opportunities in the way of values-

Mr. W. G. Tilghman, in a letter

We are able to cope with any class of undesirable citizens, and do cope with them as the trial docket and flues show in each report. We make frequent arrests, and punish the offenders severely, as we stand for good, clean and firm administration of police regulations in our city, and urge all good citizens to co-operate with us to that end, by calling our attention to all infractions made.

I have no axe to grind, or any one

I have no axe to grind, or any one to shield or protect. I am a dry man and alway have been, but I wish to publicly deny that statement made by Mr. Tilghman, and to assure the people of this city that the police of-ficials "do not stand in" with the low element, can do their duty, and do do their duty.

Yours, very truly
